

Apply now to win the European Paper Recycling Awards!

Awards recognise innovative projects enhancing paper recycling in Europe.

Submit your innovative project or campaign that enhances paper recycling in

Europe today and enter the competition to win the European Paper Recycling Awards 2017! Winners will be announced at an awards ceremony taking place in the European Parliament in October.

There are two categories:

- 1) Information & Education
- 2) Innovative technologies and R&D

The awards are open to all entities based in Europe including schools and universities, NGOs, national and regional authorities, companies and associations.

Application deadline: Monday 3 July 2017
Check out the **Frequently Asked Questions** (FAQ).

We're looking forward to receiving your submissions!

Focus on Paper for Recycling

PTS could welcome more than 50 participants at its bi-annual seminar on paper for recycling in Dresden. On the first day,

the "dry" subjects dominated – trends, availability, quality, sorting, handling and analytics. Among those, Andreas Faul presented about "Trends in quality of graphic paper for recycling". The second day was dedicated to process technology in machinery, chemical additives and research.
