

INGEDE Working Group Deinking Process meets in Eilenburg

Members of the Working Group Deinking Process

Stora Enso Sachsen hosted the spring meeting of the INGEDE Working Group Deinking Process.

Franziska Schütt opened the programme by a mill tour through warehouse, deinking plant and paper machine areas. The online sticky measurement was of particular interest.

The focus of the working group meeting was the compensation of increasing ash contents in the furnish for deinking. For this, the group had in-

vestigated possible approaches to this issue.

Anne-Katrin Klar could also welcome Georg Besold, Manfred Paulus and Holger Hampel, three delegates from our most recent member entries Kübler & Niethammer, Papier- und Kartonfabrik Varel and Schönfelder Papier. They reported about their new deinking installations and initial experiences.

A status report of the EcoPaperLoop project was on the agenda as well. Andreas Faul informed about the activities of the project partners and presented the actions in the communication work package. In October, there will be a seminar for all stakeholders in the paper loop.

In addition to the ash compensation, the group discussed and decided about the further procedure of project ideas and proposals, which haven't yet been decided upon.

Erwin Hertl of Andritz Falk Albrecht of Voith

invited representatives of the two equipment suppliers Andritz and Voith. In separate sessions, the group dis-

Andreas Faul
