## Focus: Events in fall 2013

**RWM Conference**  
10–12 Sept 2013, Birmingham, UK

This conference is the recycling and waste industry's largest learning and networking event held as part of RWM in partnership with CIWM.

With over 70% of speakers new to the programme, this is a chance to hear industry experts debate the impact of change on your market position and network with existing and potential partners

The conference provides key insights from waste producers, five different theatres providing a wide choice of topics, an increased number of panel discussions ensuring you hear balanced views and networking time built into the programme.

**EcoPaperLoop Seminar**  
29 Oct 2013, Warsaw, Poland

A seminar for everybody in the paper chain: recyclers, printers, publishers or agencies as well as packaging converters. Presentations will be given in Polish/English with simultaneous translation.

The project aims at improving the quality of paper for recycling. The EcoPaperLoop project will run until end of 2014. It is co-funded by the European Union/European Regional Development Fund (ERDF) and the local project partners.

**Digital Printing week 2013**  
12–15 Nov, 2013 Lisbon, Portugal

The biggest and best ink jet conference this autumn, with 20 presentations over three days, and with the complimentary Suppliers Forum and display space for registrants! This year we look at the emerging applications for ink jet such as commercial and industrial printing, ceramics and product decoration, hear about new printhead and ink technology, and more.

**European Paper Week**  
26–28 Nov, 2013 Brussels, Belgium

Join us for the European paper and pulp industry's biggest annual event gathering over 330 participants, from all areas and levels in the industry.

The economic and financial crisis has dramatically highlighted the need to reignite industrial growth in Europe. The pathway to the paper industry's growth is set out in the CEPI 2050 Roadmap towards a low-carbon bio-economy. The transformation of the paper industry is already leading to the development of new business models within the existing industrial base, adding value and allowing new products to be created for new markets – the paper industry has reinvented growth. This will be the theme of this year's event.

**Paper Recycling Conference Europe**  
30–31 Oct 2013, Warsaw, Poland

This event provides industry networking opportunities on a global scale along with expert analysis on the latest market trends. The conference assembles recovered paper merchants, brokers, consumers, mill representatives and equipment and service suppliers involved in paper recycling.

Paper Recycling Conference Europe is designed to bring the supply and consuming sides of the industry together to create an active dialogue and generate trading opportunities.
