

INGEDE Symposium 2024 Program

09:00	Technical introduction <i>Axel Fischer, INGEDE</i>
09:05	Welcome and introduction <i>Andreas Rauscher, Chairman of INGEDE</i>
09:25	Wake-up call: Print product as eco-offender vs. a "clean" digital world? Myths, facts, and opinions <i>Anne-Katrin Kohlmorgen, Two Sides Germany</i>
09:45	The EU packaging and packaging waste regulation and its potential impacts on paper packaging and paper recycling <i>Ulrich Leberle, CEPI, Belgium</i>
10:05	The future of fibre-based product packaging from the perspective of a global manufacturer <i>Jürgen Dornheim, Procter & Gamble</i>
10:25	Coffee break
<hr/>	
10:50	ODiWiP becomes KIBAPap: AI-based assistance for operating a paper machine <i>Hanna Schwandt, Leipa, and Felix Hake, Consultingtalents AG</i>
11:05	Consequences from the change in the composition of paper for recycling <i>Johannes Rahm, AFRY Management Consulting</i>
11:25	Change in the raw material spectrum: hygiene paper from packaging <i>Stefan Finke, WEPA</i>
11:45	Certification of sorting plants (ZAPSA): What have we learnt from the project? <i>Arne Krolle, PROPAKMA</i>
12:00	Rejects from the recycling of paper from mixed waste collections: Analysis and potentials <i>Hannah Köhler and Alena Spies, RWTH Aachen</i>
12:15	Lunch
<hr/>	
13:40	What makes our paper for recycling better, what causes problems? About blue receipts and green eco-labelling <i>Axel Fischer, INGEDE</i>
13:55	Non-wood fibres as alternative raw materials for packaging papers – Some insights into physical properties and recyclability <i>Fokko Schütt, Thünen-Institut and Friedrich Steffen, Hamburg University</i>

- 14:10 **Fibre composites in the paper recycling loop – results of a survey**
Jürgen Belle and Daniela Hirtz, Munich University of Applied Sciences
- 14:30 **Fibre production through dry defibration**
Tilo Gailat, TBP Future GmbH
- 14:50 **Functional minerals to improve sustainability in the recycling process**
Peter Biza and Michael Pietsch, Imerys Performance Minerals
- 15:10 Coffee break**
-
- 15:40 **Automated industrial contaminant control**
Gerald Krätschmer, c-square bioscience, Austria
- 16:00 **Do we need a standardised recyclability test method?**
Peter Hengesbach, StoraEnso, and Christian Trieb, PROPAKMA
- 16:15 **Paper for recycling and digitalisation: tracking the bales**
Erik van Rikxoort, IdentPro GmbH
- 16:30 **Identification of paper for recycling using camera systems**
Edmund Coersmeier, Task9
- 16:45 **Conclusion**
Andreas Rauscher, INGEDE

Venue:

The INGEDE Symposium will take place on **Wednesday, March 13, 2024** at “Haus der Bayerischen Wirtschaft“ (www.hbw.de) and will be streamed live.

For both, for participation in Munich and online, **registration is required** via the INGEDE website. The registration fee is 490 euros.

Registered participants who come to Munich are invited for an informal get-together on Tuesday night, March 12, from 19:00 in a separate area at Augustiner Klosterwirt, Augustinerstr 1.

All presentations will be simultaneously translated into English (the livestream will allow to switch between languages).
